Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: The word "silene oxides" in page 8, line 8 should be changed to "silicon oxides".

Appropriate correction is required.

Claim Objections

2. Claims 10, 17, 22, 28, 34, 41 and 53 are objected to because of the following informalities: The word "silene oxides" in page 8, line 8 should be changed to "silicon oxides". Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

4. Claims 1, 11, 18, 23, 29, 35, 46, 49 and 56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims recite forming two mask layers that are etchable by the same etch process. After performing the first etching step, the claims recite a second selective etching step that only etches the first mask apparently with affecting the second mask. The two etching steps are different according to the claims, but the mask layers are etchable by the same etching process. In that case, the selective etching of one mask is not possible. The incorporation of two etching steps for the two mask layers having the same etch characteristics renders the claims, as presented, indefinite having enablement problem.

5. Claims 8, 16, 21, 29, 40, 45, 47 and 56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The meaning of the limitation citing the covering layer is not incorporated in an etch residue is confusing since it is not clear whether the covering layer acts as an etch stop or the residues do not stick to this layer. The presence of confusing claim limitations renders the claims indefinite.

Allowable Subject Matter

6. Claims 1 – 56 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Asok K. Sarkar whose telephone number is 571 272 1970. The examiner can normally be reached on Monday - Friday (8 AM- 5 PM).
